

Transform your space with our expert interior design services

DAZOR construction is an architectural group, working on a range of different projects from more than four years. In the practice exchange philosophy is employed at every level, to enable design and management leaders to collaborate and contribute their individual expertise.

ABOOUT US

WE DESIGN YOUR HOME

Interior design is the art and science of enhancing the interior of a building to achieve a healthier and more aesthetically pleasing environment for the people using the space.

EXTERIOR ELEVATION DESIGNS AND IMPLEMENTATION

Modern and sleek, exterior
Elevations with full of natural light
and breathing room for the whole
family

MODERN LUXURY HOMES

MISSION

Dazor construction projects are defined by holistic approach allowing for enough flexibility to accommodate changes over the lifespan of a city, in order to meet market demands. The practicalities and concept of a space should be inherently flexible in order to respond to changes. A concept that incorporates a high level of standardized design will facilitate change.

RESPONSIBILITY

The practice endeavors to employ technologies that sustain rather than pollute, that are durable rather than replaceable, and that add value over time rather than falling prey to short term economies. Our main purpose is to integrate low energy design within the urban environment, to design buildings to optimize passive solar energy, natural ventilation and daylight.

COMPETENCE

Dazor construction is an architectural group working on a range of different projects from more than five years. In the practice exchange philosophy is employed at every level, to enable design and management leaders to collaborate and contribute their individual expertise.
